

## YOUR GIFT TO THE CARDINAL FUND . . .

- **provides up-to-date technological learning**

Due to the elimination of state funding for computers, computer equipment and software, we need additional funding beyond what the general school budget can contribute. Additional funding is necessary to equip our students with knowledge and to be prepared when continuing their post secondary education and joining tomorrow's work force.

- **makes the continued upgrading of our current facilities possible such as:**

- Elementary playground resurfacing
- Track resurfacing
- Improvements in the auditorium such as curtains, stage flooring and sound system

- **academic programs such as:**

- After-school tutoring programs for students
- Summer educational programs
- Continuing the tradition of excellence in all extra-curricular activities, such as theatre, vocal music, band and athletic programs
- Funding to incorporate special classroom projects
- Media equipment for student use

- **provides students with scholarships and financial aid**

Your gift will enable Clarinda graduates to begin their dream of a post-secondary education. The availability of scholarship assistance is often a deciding criterion when pursuing post-secondary endeavors.

It takes dedication, commitment and support to continue an outstanding community school system that inspires life-long learning and changes lives. Many K-12 schools across the nation have focused toward school foundations to provide additional resources to meet their rapidly changing and growing needs.

**The Cardinal Fund** will help support programs and improve learning opportunities for all students. This program will provide an ongoing opportunity to contribute to a cause that will continue to improve our school system, ensuring that all Clarinda students obtain the skills necessary to succeed in today's world and beyond. With the generosity of friends like you, it will be possible for the Clarinda Community School District to enhance its investments in our students. Your gift, along with the support of other devoted alumni and friends, will make a great school system even be better.
