## Fundraiser/Service Learning

iJAG students created a reindeer game and made cotton candy to sell at the "Spirit on the Square" holiday event in December. iJAG also made holiday cards for the assisted living homes in our community!

Both programs reached and exceeded our fundraising goal of \$350 each!

## PBLs

Project Based Learning is at the core of our lessons. In the first semester classes focused on the Career Association, Financial Literacy, Personalized License Plates, and Business Plans. During our financial literacy, students loved learning about budgeting to live on their own in the future.
